# Welcome to North East Futures UTC

**Daniel Sydes,**  
Principal

Imagine your child collaborating with industry professionals, gaining the skills that will shape tomorrow's workforce and setting themselves on a path toward a fulfilling career – all while still in College.

That's what we offer at North East Futures UTC. Since 2018, we have been one of the region's leading providers for health and digital education, giving students a strong academic foundation, hands-on projects, and access to industry professionals that help them reach their full potential. Our graduates are sought after by employers in these essential fields, ready to make a difference in the world.

Don't miss this opportunity – our limited places fill quickly.

**Derek Marshall,**  
Workforce, Training and  
Education Directorate,  
NHS England  
Chair of Local Governing Board,  
North East Futures UTC.

In September 2025 we look forward to welcoming our eighth cohort of Year 10 to the UTC. We have partnerships with a range of businesses and organisations such as Sage, Accenture, the NHS and the University of Sunderland. These organisations enrich the student experience by offering cutting edge, exciting and enjoyable input and support to the learning environment including guest speakers, projects, work experience and mentors. This helps our students achieve a broad range of academic qualifications and we aim for our students to rank amongst the most employable young people in the country.

By having close relationships with employers in the growing healthcare, life sciences and digital technology sectors we aim to support our students to make more informed choices for the route they choose to take into employment.

An exciting and stimulating place to

# learn, inspire, work and grow.

- State-Funded Education for Your Digital Health Career

# Our Amazing UTC Environment

The Listed Building element of the UTC echoes the heritage of our site

“

I'm really grateful we have places like this for young people not only from a parent's point of view but also as a business woman. All schools should be like this ... an amazing start in life and putting their wellbeing first. I worked in education for years and have rarely seen this. ”

***Current Parent***

# FOUR KEY ELEMENTS

of our UTC Curriculum

Led by our employer partners all students are offered access to industry linked projects, workshops and employer visits across the year.

Every 6th form student at the UTC is offered the opportunity to meet with an industry mentor at least 5 times per year to support their aspirations.

In Years 10 and 12, gain a competitive edge with hands-on work experience at leading local employers, building your experience and confidence in the workplace.

Employers visit the UTC every 2 weeks to deliver a talk to students about their career journey, industry and access routes.

# Support and backing from local, high-profile industry partners and employers.

Supported by:

# Next Steps

1. Register for a place on our website: [www.nef.tynecoast.academy](http://www.nef.tynecoast.academy)
